# ResorTech Okinawa

Resort Sightseeing Activity  
Social Activity in the region (Social Activity) **X** IT (Technology)

## Innovative social change

All technologies to make a series of sightseeing activities such as lodging, purchasing, traveling, and activities convenient and enjoyable. Includes marketing, simultaneous translation, cashless payment, stress-free mobility support, labor-saving robots, marine drones, etc.

The growth of tourism industry, IT industry with remarkable technological innovation, and Okinawa's two major industries will be the engines of growth and bring about innovative social change.

## Merit of visitors

### Pre-matching function for business meetings

Advance appointments from both exhibitors and visitors are possible from the WEB site (advance reservations are agreed upon by both parties)  
Advance appointments are on a first-come-first-served basis, so useful business negotiations are possible through early visitor registration.

### Okinawa Startup Festa held simultaneously

Opportunities to create innovations and collaborate on demonstration projects through interaction with startup companies

### Keynote addresses and conferences based on ResorTech

Held keynote addresses, conferences and symposiums with ResorTech as the main theme. Disseminate the latest trends and IT introduction.
